

Sneha Pillai

Application A-09 - Junior Robotics Software Engineer - REQ-2026-014

Skills

Python, OpenCV, Computer Vision, Git, AWS, Docker

Experience

Computer Vision Engineer (Junior), Drishti Analytics (Jan 2025 - Aug 2026). Built OpenCV and PyTorch pipelines for retail shelf analytics, owned the annotation tooling in Python, and worked through pull requests on a shared Git repository.

Projects

Deployed a vision inference service to AWS using Docker containers for a college showcase, including a public demo endpoint.

Education

B.Tech Computer Science, 2021 - 2025.

Cover Note

My strength is perception and vision. I have touched ROS 2 only briefly and would be learning it on the job.

This document is synthetic demo data generated for the X'O Code 2026 hackathon. It does not describe a real person.
